Experience

Lead Designer & Game Designer, Other Ocean Interactive (2021 - present)

- **Lead Designer (2022-present)** on multiple titles including 3D social deception survival game *The Walking Dead: Betrayal*, taking ownership of design on a team ranging from 30-40 people. Designed features, UI/UX, and maps. Worked in Unity to implement maps and perform rapid iteration on content. 2 other titles as lead designer are currently unannounced.
- **Game Designer (2021-present)** on the live operations team for 3D social deception survival game *Project Winter*. Designed features, UI/UX, and maps for content updates on a team ranging from 20-30 people. Provided design support for *Project Winter's* port to Playstation consoles and the Nintendo Switch.
- **Level Designer (2024)** for 2D Apple Arcade Platformer *Spongebob: Patty Pursuit*. Designed and constructed levels for content updates in Unity.

Board Member, Boston Game Dev Inc. (2024 - present)

- Board Member for registered 501(c)(3) nonprofit dedicated to supporting the local games community.

Organizer, Boston Post Mortem (IGDA Boston) (2020 - 25)

- Coordinated with 7 fellow organizers and other local game development groups to plan networking and community events for 50+ attendees, including guest speakers and livestreams.

Adjunct Instructor, Worcester Polytechnic Institute (2022)

- Taught the college course *The Game Development Process*. Instructed 35 students on major roles and processes in the games industry. Supervised and assisted teams of students in creating games in Unity.

Contract Level Designer & QA Tester, Dejobaan Games (2020 - 21)

- Designed and tested levels for PC isometric city builder *T-Minus 30*.
- Tested PC isometric city builders *T-Minus 30* & *20 Minute Metropolis*, 3D BASE jumping simulator *AAAAA Remastered*, and visual novel *Monster Loves You Too!*.

Producer, Designer, & Artist, Trumbus Games (2019 - 2020)

- Worked with 3 teammates in Unreal 4 on the 3D PC Simulation game *The Call of Karen*.
- Designed game mechanics, narrative, level layout, and modeled environment assets, and used blueprints to implement them in-game.
- Organized sprints, builds, and build reviews, and kept track of tasks, deadlines, and milestones.

Intern (2019) & Contract Sound Designer, Fire Hose Games (2020)

- Worked with the lead designer to research, design, and document gameplay structures and narrative design for an unannounced 3D PC adventure game.
- Directed voice acting talent and edited, implemented, and tested voiceover audio in Unity.

Current Hobbies • Writing a romance novel, cooking, learning Spanish, playing and writing music, D&D
